5. *Large monochromatic components in hypergraphs with large minimum codegree*  
(Co-Author: L. DeBiasio) *Journal of Graph Theory*, Volume 105 (2024) 367-372.
6. *The Random Matching and Independent Set Processes in Random Graphs and Hypergraphs with a given degree sequence*  
(Co-Author: P. Bennett) *Electronic Journal of Combinatorics* 30 (2023), no. 1, Paper No. 1.11, 28 pp.
7. *New lower bounds on the size-Ramsey number of a path*  
(Co-Author: L. DeBiasio) *Electronic Journal of Combinatorics* 29 (2022), no. 1, Paper No. 1.18, 20 pp.
8. *On the size Ramsey number of all cycles versus a path*  
(Co-Author: Ely Schudrich (MSU Student)) *Discrete Math.* 344 (2021), no. 5, Paper No. 112322, 10 pp.
9. *Hamiltonian Berge Cycles in Random Hypergraphs*  
(Co-Authors: R. Berkowitz, P. Devlin, M. Schacht) *Combin. Probab. Comput.* 30 (2021), no. 2, 228–238.
10. *Zero Forcing Number of Random Regular Graphs*  
(Co-Authors: P. Bennett, S. English, C. MacRury, P. Pralat) *J. Comb.* 12 (2021), no. 1, 85–116.
11. *A Note on a Candy Sharing Game*  
(Co-Author: J. DeGaetani (MSU student)) *Art Discrete Appl. Math.* 4 (2021), no. 1, Paper No. 1.02, 7 pp.
12. *The bipartite  $K_{2,2}$ -free process and bipartite Ramsey number  $b(2, t)$*   
(Co-Author: P. Bennett) *Electron. J. Combin.* 27 (2020), no. 4, Paper No. 4.23, 13 pp.
13. *A Ramsey Property of Random Regular and  $k$ -out Graphs*  
(Co-Author: M. Anastos) *Journal of Graph Theory* 93 (2020) 363-371.
14. *A greedy algorithm for finding a large 2-matching on a random cubic graph.*  
(Co-Authors: P. Bennett, T. Bohman, A. Frieze) *Journal of Graph Theory* 88 (2018) 449-481.
15. *Partitioning random graphs into monochromatic components*  
(Co-Author L. DeBiasio) *The Electronic Journal of Combinatorics* 24 (2017), no. 1, Paper 1.18, 25 pp.
16. *Rainbow perfect matchings and Hamilton cycles in the random geometric graph.*  
(Co-Authors: P. Bennett, X. Perez Gimenez, P. Pralat) *Random Structures Algorithms* 51 (2017), no. 4, 587–606.
17. *The Total Acquisition Number of Random Graphs.*  
(Co-Authors: P. Bennett, A. Dudek, P. Pralat) *The Electronic Journal of Combinatorics* 23 (2016), no. 2, Paper 2.55.
18. *Lazy Cops and Robbers Played on Random Graphs and Graphs on Surfaces.*  
(Co-Authors: A. Bonato, W.B. Kinnersley, P. Pralat) *Journal of Combinatorics* 7 (2016) no. 4, 627-642.
19. *Rainbow Arborescence in Random Digraphs.*  
(Co-Authors: P. Bennett, C. Cooper, A. Frieze, P. Pralat) *Journal of Graph Theory* 83 (2016), no. 3, 251-265
20. *Rainbow Matchings and Hamilton Cycles in Random Graphs.*  
(Co-Author: A. Frieze) *Random Structures and Algorithms* 48 (2016) no. 3, 503-523.
21. *Power of  $k$ -choices and Rainbow Spanning Trees and Random Graphs.*  
(Co-Authors: P. Bennett, A. Frieze, P. Pralat) *The Electronic Journal of Combinatorics* 22 (2015), no. 1, Paper 1.29, 22 pp.

22. *Lazy Cops and Robbers on Hypercubes*.  
(Co-Authors: A. Bonato, W.B. Kinnersley, P. Pralat) *Combinatorics, Probability and Computing* 24 (2015), no. 6, 829-837.
23. *Packing Tree Factors in Random and Pseudo-Random Graphs*.  
(Co-Authors: A. Frieze, M. Krivelevich, P. Loh) *The Electronic Journal of Combinatorics* 21, 2014, P2.8.
24. *The  $t$ -tone chromatic number of random graphs*.  
(Co-Authors: P. Bennett, A. Dudek, A. Frieze) *Graphs and Combinatorics* 30 (2014), no. 5, 1073-1086
25. *Packing tight Hamilton cycles in uniform hypergraphs*  
(Co-Author: A. Frieze) *SIAM Journal on Discrete Mathematics* 26, 2012, 435-451.
26. *On the Maximum Number of Edges in a Hypergraph with a Unique Perfect Matching*.  
(Co-Authors: A. Dudek, Z. Yilma) *Discrete Mathematics* 311, 2011, 2577-2580.
27. *Graph Connectivity, Partial Words, and a Theorem of Fine and Wilf*.  
(Co-Authors: F. Blanchet-Sadri, G. Sisodia) *Information and Computation* 206, 2008, 676-693.

#### Submitted papers

1. *Nordhaus-Gaddum inequalities for the number of cliques in a graph*  
(Co-Authors: J. Cutler, L. Pebody) Submitted.
2. *Generalized Ramsey numbers of cycles, paths, and hypergraphs*  
(Co-Authors: P. Bennett, E. Heath, S. Zerbib) Submitted.
3. *On the multicolor Ramsey numbers of balanced double stars*  
(Co-Authors: L. DeBiasio, E. Oren-Dahan (MSU student)) Submitted.
4. *Larger matchings and independent sets in regular uniform hypergraphs of high girth*  
(Co-Author: P. Bennett) Submitted.

#### Other writings

1. *On Sharp Thresholds of Monotone Properties: Bourgain's Proof Revisited*. Exposition of a proof of Bourgain (2012)
2. *Leibniz, Bernoulli and the Logarithms of Negative Numbers*. Written for the Reading Classics VIGRE Working Group at Ohio State Univ., Spring 2006

#### MENTORING EXPERIENCE

#### Master's Theses advised

1. Jacquelyn Franqui M.S. Mathematics (expected graduation May 2025). *Graph and Hypergraph Codes*
2. Ella Oren-Dahan 5 year B.S./M.S. Mathematics (graduated May 2024). *Multicolor Bipartite Ramsey Number of Double Stars*
3. Sarah Acquaviva M.S. Mathematics (graduated May 2023). *The Full Degree Spanning Tree Problem*
4. Ely Schudrich, 5 year B.S./M.S. Mathematics (graduated 2021). *Bipartite, size and online Ramsey numbers of some cycles and paths*
5. Joseph DeGaetani, M.S. Pure and Applied Mathematics (graduated 2018). *Candy Sharing and Chip Firing Games on Graphs*
6. Adam Cartisano, M.S. Pure and Applied Mathematics (graduated 2018). *The Dispersion Process for Particles on Graphs*

#### Master's Capstones advised

1. Dong Kim, M.S. Mathematics (graduated 2022)

2. Richard Anderson, M.S. Mathematics (graduated 2021)
3. Amanda Lee Phillips (joint advised with Jon Cutler), M.S. Mathematics (graduated 2020). *Branches of the Ramsey Tree*

#### **Undergraduate and High School Student Research Advised**

1. Andrew Michel (2024, CSAM Summer Undergraduate Research Program - joint advising with J. Cutler) *Saturation of  $k$ -chains in the Boolean Lattice*
2. Lana Saadeddin and Harold Haynes (2024) *Random greedy sorting networks*
3. Harold Haynes (2023-24, Univeristy Undergraduate Research Program (Sp/Su 23), GS-LSAMP (2023-)) *Random Variants of the Fibonacci Sequence*
4. Emmalie Foti (2023, CSAM Summer Undergraduate Research Program) *Multicolor Online Ramsey problems; Ramsey Theory for Permutation Patterns*
5. Aidan Gideon and Dylan Rafael (Summer 2023, Montclair High School CIP Internship Mentor) *An implementation of Online Ramsey games*
6. Ella Oren-Dahan (2021-23) *Multicolor Bipartite Ramsey Number of Double Stars*
7. Nico Vega (2020-2021, LSAMP) *Tournaments arising from Partitions*
8. Sarah Acquaviva (2020-21) *Using the Julia language to model and study the Montclair State student network*
9. Ricky Wilde (2020) *The Full-degree spanning tree problem in bounded degree graphs*
10. Gregory Pylypovych (High School student) (2018-2019) *Random processes on graphs*
11. Joao Paulo Dos Santos Ferreira (2018-2019) SHIP Program participant. *Machine Learning and Combinatorial Algorithms*
12. Patrick Palka (2016-2018). SHIP Program participant. *Asymmetric Random Sequential Adsorption*

#### **Master's Thesis Committees**

- Roland Hutchinson (2024 expected)
- Frankie Menicucci (2024)
- Phoebe Zielonka (2023)
- Irina Chernyavsky (2022)
- Kyle Robbins (2022)
- Rachel Lopez (2022)
- Imani Mosquera (2022)
- Claire Burke (2021)
- Daniel Arabia (2020)
- Jhonny Alameida (2018)
- Giancarlo Labruna (2018)

#### **PhD Committees**

- Jacob Hauser (Lehigh University - ongoing)
- Sepideh Vafaie (ongoing)
- Su San Lim (ongoing)

TEACHING  
EXPERIENCE

**Montclair State University**, Montclair, NJ USA

*Course Instructor*

Responsible for planning lectures, writing tests as well as grading.

- Fall 2024
  - MATH 122 Calculus 1 (2 sections, 37+37 students)
  - MATH 580 Combinatorial Mathematics (Graduate Course)
- Spring 2024
  - MATH 221 Calculus 2 (60 students)
  - MATH 431 Foundations of Modern Algebra (22 students)
- Fall 2023
  - MATH 122 Calculus 1 (2 sections, 60+35 students)
- Spring 2023
  - MATH 221 Calculus 2 (35 students)
  - MATH 431 Modern Algebra (21 students)
  - MATH 531 Abstract Algebra 1 (17 students)
- Fall 2022 - Sabbatical
- Spring 2022
  - MATH 431 Modern Algebra
  - MATH 450/550 Geometry
- Autumn 2021
  - MATH 102 New Student Experience
  - MATH 122 Calculus 1 (2 sections)
  - MATH 580 Combinatorial Mathematics (Graduate course)
- Spring 2021
  - MATH 122 Calculus 1 (1 large section)
  - MATH 531 Abstract Algebra 1
- Autumn 2020.
  - MATH 102 New Student Experience (19 students)
  - MATH 122 Calculus I (2 sections) (40 + 39 students)
- Spring 2020.
  - MATH 221 Calculus II (2 sections) (39 + 34 students)
  - MATH 485 Applied Combinatorics and Graph Theory (18 students)
- Autumn 2019.
  - MATH 221 Calculus II (38 students)
  - MATH 431 Modern Algebra (22 students)
- Spring 2019.
  - MATH 221 Calculus II (2 sections) (21+35 students)
  - MATH 581 Graph Theory (Graduate course) (17 students)
- Autumn 2018.

MATH 221 Calculus II (28 students)

MATH 485 Applied Combinatorics and Graph Theory (19 students)

- Spring 2018.

MATH 221 Calculus II (36 students)

MATH 431 Modern Algebra (30 students)

- Autumn 2017.

MATH 221 Calculus II (2 sections) (29+33 students)

MATH 580 Combinatorial Mathematics (Graduate course) (24 students)

- Spring 2017.

MATH 221 Calculus II (30 students)

MATH 431 Modern Algebra - 2 sections (16 + 25 students)

- Autumn 2016.

MATH 221 Calculus II (31 students)

MATH 485 Applied Combinatorics and Graph Theory (31 students)

- Spring 2016

MATH 122 Calculus I - 2 sections (32+29 students)

- Fall 2015

MATH 122 Calculus I - 2 sections (30 + 32 students)

### **Miami University**, Oxford, Ohio USA

#### *Course Instructor*

Responsible for planning lectures, writing tests as well as grading.

- MTH151 Calculus I, Autumn 2014 (2 sections, approximately 45 students each).
- MTH251 Calculus II, Spring 2015 (2 sections).

### **Ryerson University**, Toronto, Ontario Canada

#### *Course Instructor*

Responsible for course design, writing tests as well as grading.

- MTH607 Graph Theory, Winter 2014 (approximately 60 students).

#### *Advising*

Co-advising (with A. Bonato) undergraduate student Xindi Wang in Random Graphs and Networks as part of Mitacs Globalink Program.

### **Carnegie Mellon University**, Pittsburgh, Pennsylvania USA

#### *Course Instructor*

Responsible for course design, writing tests as well as grading.

- 21-256 Multivariate Analysis, Summer 2009
- 21-260 Models and Methods of Optimization, Summers 2010 and 2012

#### *Teaching Assistant*

- TA for 6 different courses including Calculus, Discrete Math, Optimization, Differential Equations and Multivariable Calculus. Responsible for teaching recitations and grading tests and homeworks.

- Calculus TA for the Summer Academy for Math and Science (SAMS) Summer 2013 at Carnegie Mellon University. SAMS is a residential summer program for high school students meant to promote diversity in the ranks of outstanding college-bound students interested in STEM fields.

## TALKS

Talk at New York Graph Theory Workshop (CUNY Graduate Center) “Size-Ramsey Numbers of Hypergraph Paths” (May 2024)

Invited talk at New York Combinatorics Day (Hofstra University). “Multicolor Ramsey Numbers of Double Stars” (April 2024)

Talk at SIAM-NNP 2023 Annual Meeting Minisymposium on Advances in Graph Theory (Newark, NJ) “Large Monochromatic Components in Expansive Hypergraphs”. (Oct 2023)

Invited Talk at Auburn Discrete Mathematics Seminar (Virtual) “Nordhaus Gaddum inequalities for number of cliques” (March 2023)

Invited Talk at AMS Fall Sectional (Amherst, MA) “Large Monochromatic Components in Expansive Hypergraphs” (October 2022)

Single Session Workshop at Math For America entitled “What are the Chances?!” March 2022

Invited Talk at University of Illinois - Urbana Champagne Graph Theory and Combinatorics Seminar (Online) “Large monochromatic components in expansive  $r$ -uniform hypergraphs.” (Sept 2021)

Invited Talk at “Round the World Relay in Combinatorics” Representative of NYC Time Zone “Size Ramsey numbers of paths and cycles” (June 2021)

Invited Talk at AMS Fall Sectional (Virtual) “Size Ramsey Numbers of Paths and Cycles” (October 2020)

Invited Talk at Western Michigan University Graph Theory Seminar “Hamilton Berge cycles in random hypergraphs” (January 2020)

Invited Talk at United States Naval Academy Combinatorics and Topology seminar “The size Ramsey number of paths” (November 2019)

Invited Talk at Yale University Combinatorics Seminar “The size Ramsey number of paths” (October 2019)

Talk at New York Combinatorics Seminar “The size Ramsey number of paths” (October 2019)

Invited Talk at AMS Spring Sectional (Auburn, AL) “Berge Hamiltonian cycles in random hypergraphs” (April 2019)

Talk at Montclair State Math Club “What are the Chances” (April 2019)

Invited Talk at Western Michigan University Graph Theory Seminar “Zero forcing number of random regular graphs.” (February 2019)

Talk at MAA-NJ Fall Meeting, Session on Graph Theory “Berge Hamiltonian cycles in

random hypergraphs.” (October 2018)

Talk at SIAM Conference on Discrete Mathematics Minisymposium on Discrete Random Processes “The bipartite  $K_{2,2}$ -free process and Ramsey numbers.” (June 2018)

Invited Talk at AMS Spring Sectional (Boston, MA) “The bipartite  $K_{2,2}$ -free process and Ramsey numbers.” (April 2018)

Invited Talk at Graph Theory Day 75 (Brooklyn College, CUNY) “Monochromatic Components in Random Graphs” (April 2018)

Invited Talk at AMS Spring Sectional 2018 (Columbus, OH) “The bipartite  $K_{2,2}$ -free process and Ramsey numbers.” (March 2018)

Invited Talk at Miami University (Oxford, OH) Mathematics Department Colloquium “Dynamic Concentration and Bipartite Ramsey Numbers” (March 2018)

Montclair State University Department of Mathematical Sciences Colloquium “Monochromatic Structures in Edge-Colored Random Graphs” (February 2018)

Invited Talk at Rutgers Discrete Math Seminar “Monochromatic Structures in Random Graphs” (October 2017)

Invited Talk at AMS Fall Sectional 2017 (Buffalo, NY) Special Session on Advanced Techniques in Graph Theory. “Monochromatic Components in Random Graphs” (September 2017)

Random Structures and Algorithms 2017 (Gnieszno, Poland). “Monochromatic Components in Random Regular and  $k$ -out Graphs” (August 2017)

Canadian Discrete and Algorithmic Mathematics - CanaDAM (Toronto, ON, Canada). “Analysis of the 2GREEDY algorithm on random graphs with a prescribed degree sequence.” (June 2017)

Plenary Talk at Graph Theory Day 73 (Brooklyn, NY). “Rainbow Structures in Random Graphs.” (April 2017)

Invited Talk at 4th Lake Michigan Workshop on Combinatorics and Graph Theory (Kalamazoo, MI). “Rainbow Structures in Random Graphs.” (April 2017)

Invited talk at AMS Spring Sectional 2017 (Bloomington, IN) Special Session on Probabilistic Methods in Combinatorics. “Improved analysis of the 2GREEDY algorithm on random graphs with a prescribed degree sequence.” (April 2017)

Invited talk at SIAM DM16 (Atlanta, GA) Minisymposium on Monochromatic Covering and Ramsey-Type Problems. “Monochromatic Covers and Partitions of Random Graphs” (June 2016)

Invited talk at AMS Spring Sectional 2016 (Fargo, ND) Special Session on Topics on Probabilistic and Extremal Combinatorics. “The random greedy Algorithm in Random Regular Hypergraphs” (April 2016)

Invited talk at Emmanuel College, Boston, MA “The Probabilistic Method” (April 2016)

New York Combinatorics Seminar (CUNY Graduate Center). “Monochromatic Covers and Partitions of Random Graphs” (October 2015)

Invited talk at AMS Fall Sectional 2015 (Loyola) Special Session on Topics in Graph Theory, Hypergraphs and Set Systems. “Rainbow Structures in Random Graphs” (October 2015)

Random Structures and Algorithms 2015. “Monochromatic Covers and Partitions of (Pseudo) Random Graphs” (July 2015)

Invited talk Ohio State University Combinatorics and Probability Seminar “Monochromatic Cycle Partitions of Random Graphs” (April 2015)

Invited talk at AMS Central Spring Sectional Meeting 2015 (Michigan State) Special Session on Extremal Graph Theory: Hypergraphs, Directed Graphs, and Other Generalizations. “Monochromatic Cycle Partitions of Random Graphs” (March 2015)

Miami University Graph Theory Seminar. “Random Colorings of Random Graphs.” (September 2014)

2014 SIAM Conference on Discrete Mathematics. Invited talk at mini-symposium on “Pursuit Games on Graphs.” (June 2014)

Ontario Combinatorics Workshop, York University. “The Total Acquisition Number of Random Graphs” (May 2014)

G@R Seminar, Ryerson University. “Rainbow Matchings and Hamilton Cycles in Random Graphs” (Dec. 2013)

Canadian Discrete and Algorithmic Mathematics - CanaDAM (Jun. 2013)

Ottawa Carleton Discrete Mathematics Days (May 2013)

54th Midwest Graph Theory Conference - MIGHTY LIV. “Packing Tree Factors in Pseudo-Random Graphs” (Apr. 2013)

Portland State University. Invited talk “Random and Pseudo-Random Graphs” (Feb. 2013)

Western Michigan University. Invited Graph Theory Seminar. “The 2-tone chromatic number of random graphs” (Jan. 2013)

Algorithms, Combinatorics and Optimization Seminar, Carnegie Mellon University. “Packing tight Hamilton cycles in uniform hypergraphs” (2012)

Graduate Student Seminar, Carnegie Mellon University. 5 talks:

- “Random and Pseudo-Random Graphs” (2013)
- “0-1 laws for random graphs” (2012)
- “Normal numbers” (2012)
- “The maximum number of edges in a hypergraph with a unique perfect matching”(2011)
- “The probabilistic method” (2011)

ACO Graduate Student Seminar, Carnegie Mellon University “Packing tight Hamilton cycles in hypergraphs” (2012)

Summer Undergraduate Applied Mathematics Institute, Carnegie Mellon University. “Ram-

sey Theory” (2012)

PROFESSIONAL  
SERVICE

**Montclair State University**

Student Research Symposium Review Committee (Spring 2024)

CSAM Research Committee (2021-23). Served as Chair 2021-22.

Department of Mathematics DPAC (2021-2024, Chair 2023-2024)

Coach of Montclair State University Putnam Team (2016-present)

Department Scholarship Committee (2015-present)

Department Undergraduate Curriculum Committee (2017-2019)

Department Course Scheduling Committee (2019-2020)

Applied Math Search Committee (2016)

Poster judge and session moderator for Undergraduate Student Research Symposium and CSAM Sigma Xi Symposium (2017 - 2019)

At-Large senator in University Senate. Serving on Student Affairs committee (2018-2021)

Office of Faculty Advancement Teaching Principles Committee. Faculty Advisory board for OFA (2020-2022)

**Mathematical Community**

Steering Committee for New York Graph Theory Workshop 2024, held May 27-30 at the CUNY Graduate Center in New York City.

Co-organizer of GRASAm (Graph Searching in America) 2023, held August 3-4, 2023 at the CUNY Graduate Center in New York City.

Co-organizer of Minisymposium on “Advances in Graph Theory” at the SIAM-NNP inaugural conference held at NJIT, Oct 2023.

Co-organizer New York Combinatorics Seminar held approximately once a week at CUNY Graduate Center, New York, NY. 2016-present

MAA-NJ Vice Chair for Speakers 2022-present

MAA-NJ Vice Chair for Student Affairs 2018-2022

Co-Director of the Garden State Undergraduate Mathematics Conference (GSUMC). Annual conference for undergraduates consisting of a competition, a poster session, talks by students and a plenary lecture by a noted mathematician. 2018-2022

Co-organized (with Patrick Bennett) “Minisymposium on Discrete Random Processes” at SIAM Conference on Discrete Mathematics, June 2018, Denver, CO.

Co-organized (with Jon Cutler and Jozef Skokan) “Special Session on New Developments in

Graphs and Hypergraphs” at Fall 2016 Eastern Sectional Meeting of the AMS, September 2016, Brunswick, ME.

Refereed articles for Journal of Combinatorial Theory Series B, Random Structures and Algorithms, Combinatorica, Combinatorics Probability and Computing, Journal of Graph Theory, SIAM Journal on Discrete Mathematics, Discrete Mathematics, Ars Combinatoria, Discrete Applied Mathematics, Discussiones Mathematicae Graph Theory, Internet Mathematics, CPAIOR, SIROCCO, WAW

Reviewer for MathSciNet Mathematical Reviews

Presentation judge (online video presentations by high schoolers) for New Jersey Academy of Science Spring 2020

Poster Judge for GS-LSAMP Fall conference 2018

Grader for NJ Undergraduate Mathematics Competition 2018

Academic Mentor for Street Squash Newark program (Fall 2015)

AWARDS, GRANTS, HONORS ETC. Received \$2,400 Separately Budgeted Research Award FY 2019 from Montclair State Office of Research and Sponsored Programs.

Participant in Engaged Teaching Fellows Program AY 2019-20

Received \$10,000 from Coca-Cola Foundation to fund Mathematical Sciences Colloquium Series at Montclair State

Received \$1,000 travel funding to attend Workshop on Random Geometric Graphs and Their Applications to Complex Networks, Fields Institute, Toronto, ON, June 2017

Departmental support at Carnegie Mellon (non-teaching): Fall 2009, Summer 2011, Fall 2012, Spring 2013.

Graduated Magna Cum Laude with Honors from Ohio State University.

O’Connell Computer Science Scholarship 2007-2008 at Ohio State University.

Lubrizol Foundation Math Scholarship at Ohio State University.

Math Scholarship Recipient 2005-2007 at Ohio State University.

Research 2 Research Undergraduate Research Grant Summer 2007.

Participant in REU at University of North Carolina at Greensboro Summer 2006.

National Merit Scholarship Finalist.

ASSOCIATION MEMBERSHIPS Member Mathematical Association of America

Phi Beta Kappa

COMPUTER SKILLS Proficient in Java, Python (including scikit-learn package), Experience with MATLAB, R,

Mathematica, MySQL.
